

The Road to Prosperity

35 Miles
 Moderate difficulty (three hills)
 Asphalt pavement
 Light traffic, except around Waynesburg

About the Ride
 Route 18 is the kind of road touring bicyclists live for: smooth pavement, light traffic, interesting scenery and a wonderful store in Nineveh. You have two stiff climbs on Rt. 18 and one on Rt. 221, but the rest is pretty easy. There are a couple of covered bridges, plenty of services and two township parks where you can take a break. Look for the hummingbirds just before you make the turn onto Conger Road.

- Cues**
- 0 Begin at Greene County Court House, Washington and High Sts. Go west on High St., Rt. 21
 - 0.1 Right Rt. 18.

Remember... WEAR YOUR HELMET

Shortcut—25 Miles
 At Sycamore turn right on WW Road. This becomes WW Railroad Road and follows the old Waynesburg & Washington Railroad; that's the grade you will see along the way. At the bottom of the hill at Dunn's Station, turn right on 221. Look for the face in the rock between Sycamore and Swarts. It's on the right and downright spooky.

Pennsylvania
 Memories last a lifetime.

Where you're likely to encounter herds of deer, flocks of turkeys, grouse, pheasants, and great blue herons. You will also find the usual groundhogs, rabbits, squirrels and suicidal chipmunks that dare you to hit them.

Where you'll still find barns with "Chew Mail Pouch Tobacco" painted on their sides, white frame churches that practically define the word "picturesque," and log cabins hand hewn from chestnut trees that were felled more than a hundred years ago.

Where the only sounds you'll hear for miles are the songs of birds and your tires on the pavement.

Where people still wave as you go by. Where you'll want to come back and ride again and again.

SOME THINGS YOU NEED TO KNOW

This is Greene County! There are hills here!
We've made every effort to find the easiest ones, but unless you are riding the Greene River Trail, you are going to climb. That means that unless you are in training for the Tour de France, you are going to need a bike with a triple chainring (three gears up front).
If you don't feel like climbing, just ride up one of our beautiful valleys and turn around when you get to a hill. Remember, no one is keeping score and bicycling is supposed to be fun. Also, each valley has side roads that invite exploring. And Greene County is a great place to explore.

NUTS AND BOLTS
There are two kinds of bicyclists—those who have had a flat tire, and those who will. Always carry a patch kit and/or a spare inner tube, an air pump and some tire levers. Learn how to use them before you go riding. As of yet, there are no bike shops in Greene County, so when it comes to repairs, you are on your own. It's also a good idea to ride with a companion.
The further you are from the I-79 corridor, the less likely it is your cell phone will work, especially in the valleys.
ALWAYS WEAR A HELMET! And, be familiar with bicycling safety rules and the rules of the road.

While you are in Greene County...

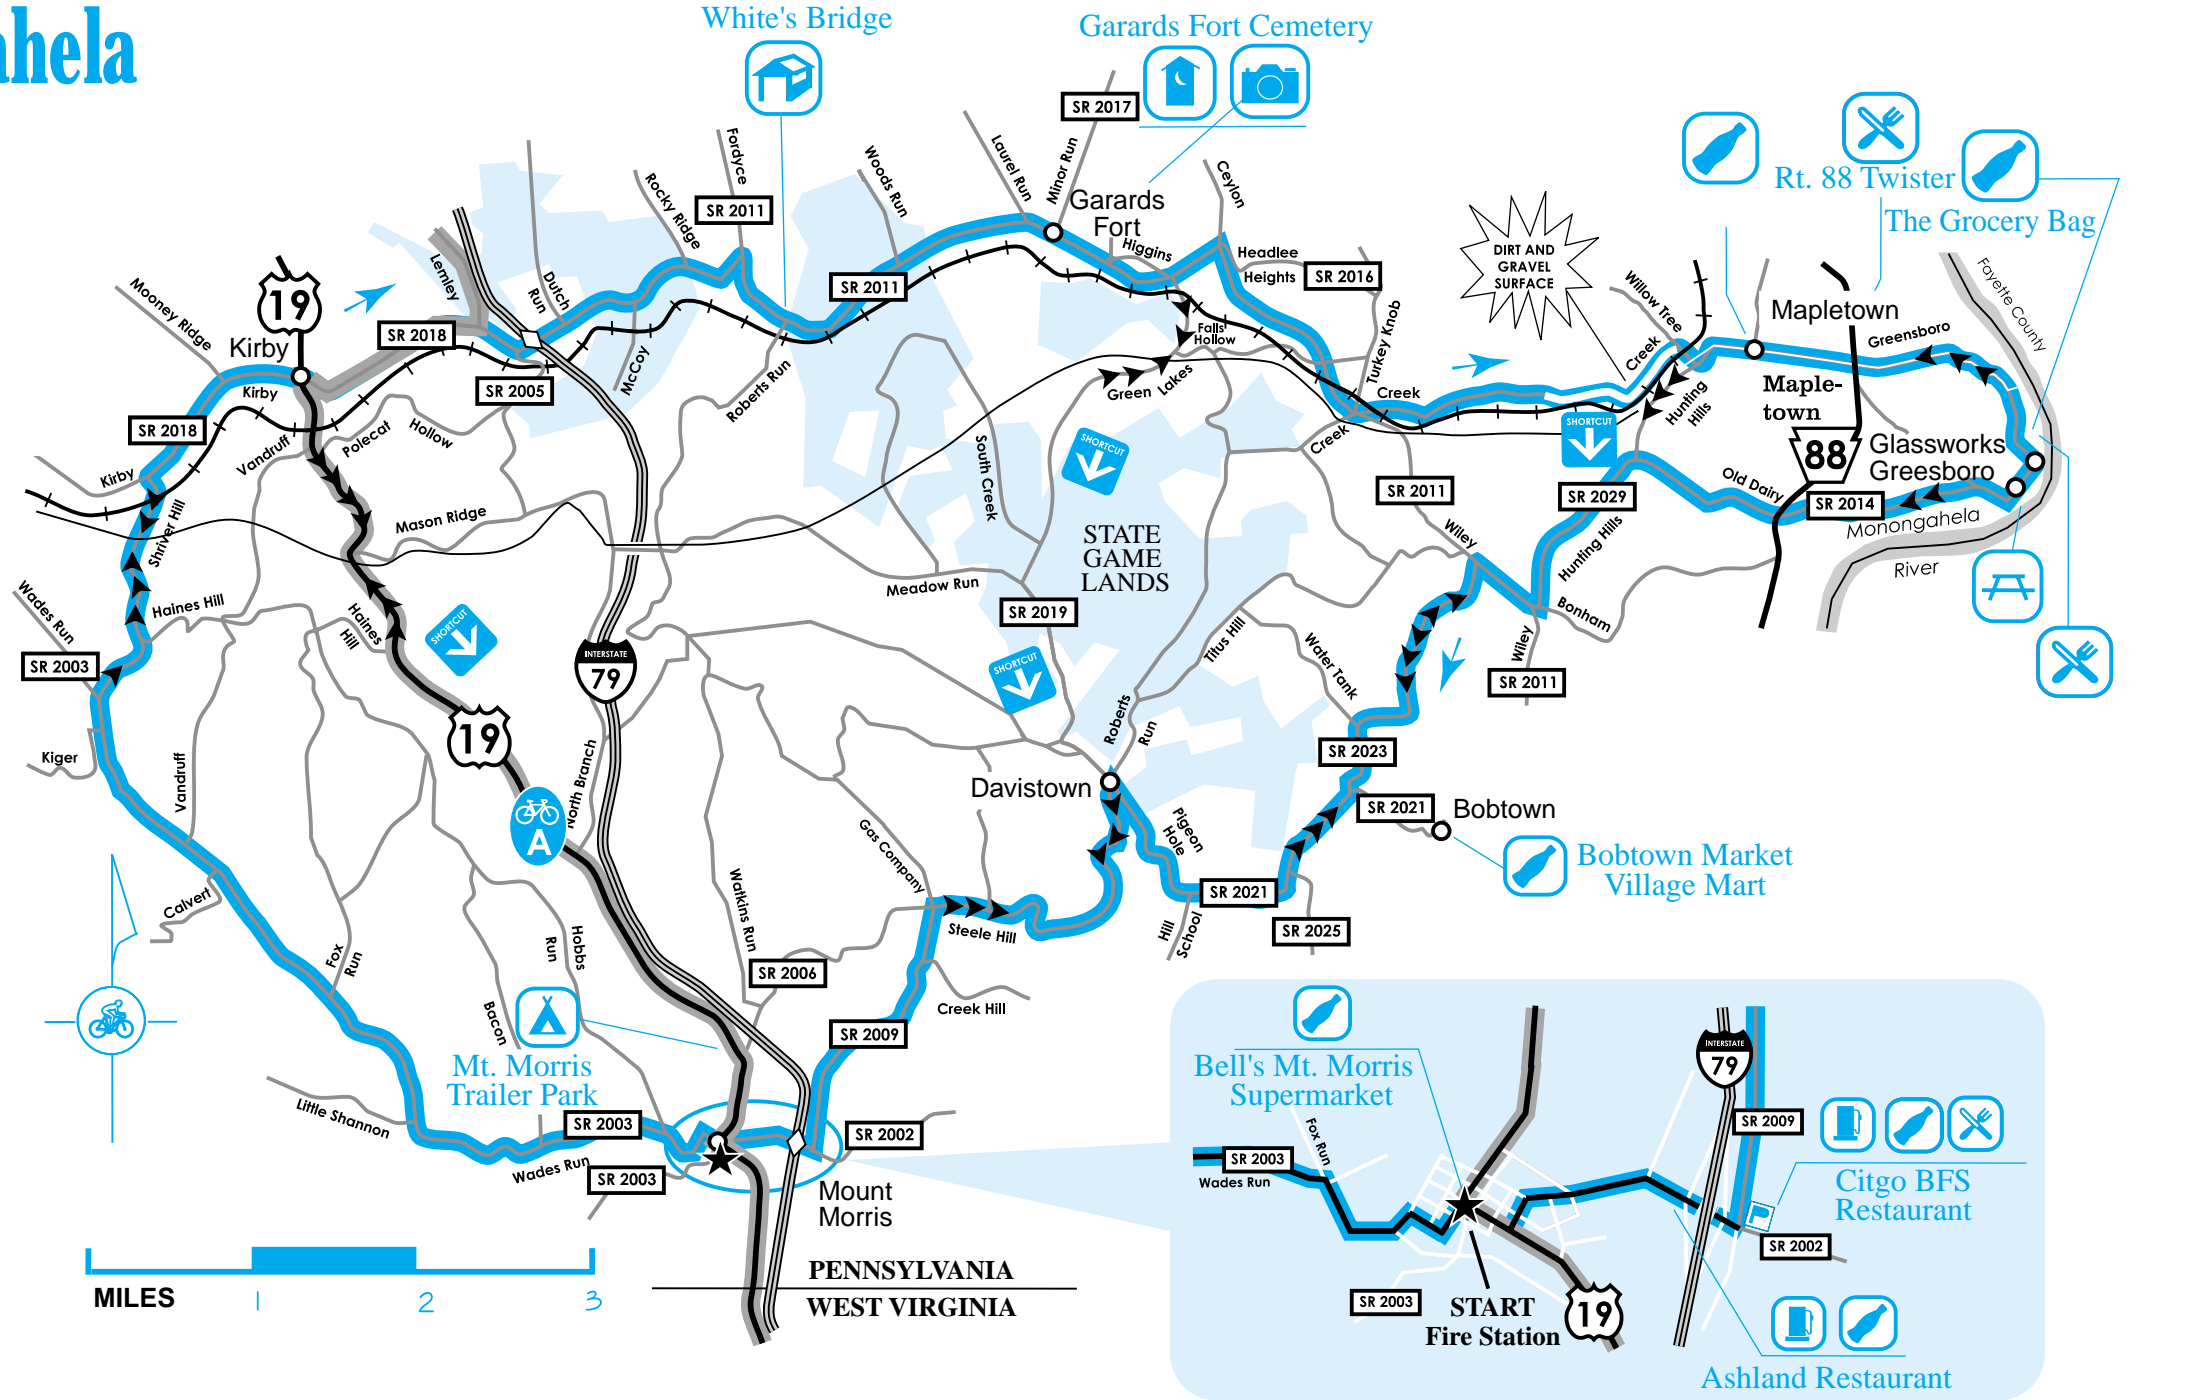

- The Greene County Courthouse**
It's not only the starting point of several of our bike rides, but it was built in 1851 and is considered an outstanding example of classic revival architecture.
- Waynesburg College**
Established in 1849, it was one of the first two colleges in Pennsylvania to grant degrees to female students. The original building, Hanna Hall, is still in use.
- Hughes House**
This large stone house was built about 1814. It was used as a stop on the Underground Railroad. It is located in Jefferson and is being restored.
- W.A. Young and Sons Machine Shop**
A true treasure from the Industrial Age, this belt-driven machine shop and foundry is located at Rices Landing. It is owned and operated by the Greene County Historical Society and is open to the public several times during the year.

- Greene County Historical Society Museum**
It is a step back in time when you walk the grounds of the former Greene County Home, now a museum. You will see an old country store and a steam locomotive that once ran on the narrow-gauge railroad between Waynesburg and Washington.
- The Warrior Trail**
If you are tired of biking, take a walk on the Warrior Trail. This trail runs along a ridge on an ancient Native American path. You won't get your feet wet—the trail extends for miles, but never crosses a stream.
- Ryerson Station State Park**
Few people outside of Greene County are aware of this delightful little state park that is located 21 miles west of Waynesburg. Its 1,600 acres are graced with 10 miles of hiking trails, a 62-acre lake and a 50-site campground. The swimming pool is open from 11 a.m. to 7 p.m. from Memorial Day Weekend to Labor Day. For camping reservations, call: 724-428-4254

About the Ride
This ride offers 37 challenging miles in a variety of settings. You start up the Shannon Run Valley, cross the ridge at a low point, then cross through the Game Lands. Look for the covered bridge—it makes a great place to stop at the Garards (pronounced Girards) Fort Cemetery for a quick history lesson. The gravel surface on Creek Road is fine if you take it easy. Greensboro is a grand old river town and well worth the visit. The rest of the ride involves climbing, but rest assured that it's the easiest route we could find.
